Elementary School Brno, Arménská 21, introduces itself

Elementary
School Brno, Arménská 21

The goal of our school is to offer a good quality education to our pupils in safe environment which does not exclude openedness to all at the same time.

There are three pillars in our school educational process:

- **A quality school** – it knows where to focus and follows it successfully (inspired by recommendations of Czech School Inspectorate)
- **A safe school** – a child is safe here and feels safe (a cooperation with Safe School Association)
- **An open school** – is healthy and motivating (we are a member of Brno's Open School Network)

Our primary school is a faculty school of Faculty of Education at Masaryk University. It focuses on sport, especially on swimming in cooperation with Kometa Brno Club.

Our pupils get excellent results in nationwide sport competitions every year thanks to our good quality sports background (renewed swimming pool, school playground with athletic circle and a big school gym).

The image shows three overlapping photographs of a fire alarm control panel from 2018. The panels are mounted on a wall and display various status indicators and a grid of buttons for different fire zones and alarm types. The text on the panels is partially obscured by the overlapping nature of the photos.
